FOR IMMEDIATE RELEASE

**MCKENNEY'S RANKED AS "BEST PLACE TO WORK"  
THIRD CONSECUTIVE YEAR**

***Mechanical contractor recognized by Atlanta Business Chronicle***

Atlanta, GA — September 16, 2011 — The company known for creating great work environments for its clients has again been recognized as creating one for its own employees as well.

For the third consecutive year, McKenney's, Inc. was named one of Atlanta's "Best Places to Work" among midsize companies by the Atlanta Business Chronicle – Atlanta's leading business publication. Readers submitted nearly 500 candidate organizations for the annual award, which recognizes a variety of satisfaction and engagement criteria, such as manager effectiveness, trust in senior leaders, alignment with goals and team effectiveness.

"Our leadership team fully understands the value of attracting and retaining top talent," said John McKenney, the company's president and CEO. "Clearly, people want competitive compensation and benefits. But beyond that, they want a rewarding work environment that is stimulating, challenging, collaborative and growth-oriented. We do everything we can to provide that for the people who choose to work here."

Each year, the Atlanta Business Chronicle, in partnership with independent research firm Quantum Workplace, polls area enterprises to determine Atlanta's top 100 Best Places to Work. Nominations were accepted in June through the Chronicle's website and from July to mid-August, employees of the nominated organizations completed online surveys regarding work environment, co-workers and managers.
