

McKenney's buildingCONNECT

Secure connection to your building; Anytime, Anywhere

Accessing our buildings at a moment's notice has become crucial in today's reality. New technologies and circumstances are changing the way businesses operate, and the question is how can we not afford to stay connected to our building management systems.

Stay on top of your facility's essential systems with **buildingCONNECT**: McKenney's cloud-based platform that provides administrators tools to monitor system performance in real-time, manage components for peak efficiency, and conduct routine maintenance remotely—all while using state-of-the-art cybersecurity.

A Deep Dive into buildingCONNECT

ENCRYPTED

Third party cyber-pen tested, mitigating any vulnerabilities

INTEGRATION
